2661 #

In re Patent Application of:

Daniel P. Lyon, et al.

Serial No.: 09/911,745

Filed: July 23, 2001

For: PROCESSOR DEVICE FOR TERMINATING
AND CREATING SYNCHRONOUS
TRANSPORT SIGNALS

) Examiner: Not Assigned

) Group Art Unit: 2661

) Attorney Docket No.: 135122-C2

) Date: December 11, 2001

RECEIVED

DEC 28 2001

Assistant Commissioner for Patents
Washington, D.C. 20231

Technology Center 2600

Sir:

THIRD INFORMATION DISCLOSURE STATEMENT

Enclosed is an Information Disclosure Statement form listing items of information found that relate to the subject matter of the above patent application and copies of the cited items of information. A concise explanation of the relevance of each reference is specifically pointed out hereinafter.

In accordance with 37 CFR 1.97(c)(2), this Information Disclosure statement is accompanied by the appropriate fee set forth in 37 CFR 1.17(p). Pursuant to 37 CFR 1.97(g) and (h), Applicants make no representation that these documents qualify as prior art or that these references are material to patentability of the present application or that a search has been made.

12/27/2001 JADD01 00000004 09911745

180.00 OP

DSC iMTN Product Overview, No. 6-601, Issue 1, June 16, 1992 is a marketing paper discussing an Integrated Multi-Rate Transport Node having tributary signal processors (see e.g. page 4).

DSC Communications Corporation Preliminary Proposal Number 2248810 discusses equipment relating to an integrated multi-rate transport node. This document is believed to have been provided only to Fulcrum Communications, LTD. under conditions of secrecy and is clearly labeled as "DSC Confidential".

Nondisclosure Agreement dated July 7, 1992 is the nondisclosure agreement under which Preliminary Proposal Number 2248810 falls.

DSC Proposal Number 2339020 discusses equipment relating to the use of synchronous payload envelopes in an integrated multi-rate transport node bandwidth management system. This document is believed to have been provided only to Southern New England Telephone under conditions of secrecy. It clearly indicates that dissemination is prohibited.

DSC Proposal Number 2322810 discusses equipment relating to the use of synchronous payload envelopes in an integrated multi-rate transport node bandwidth management system. This document is believed to have been provided only to Unitel under conditions of secrecy. It clearly indicates that dissemination is prohibited.

DSC Communications Corporation Proposal Number USWTiMTN discusses equipment relating to the use of synchronous payload envelopes in an integrated multi-rate

transport node bandwidth management system. This document is believed to have been provided only to US West under conditions of secrecy.

MCI Telecommunications Corp. Purchase Order Number 18 004667 is a purchase order for various components of a DEX cross connect system and an integrated multi-rate transport node system.

DSC Communications Corporation Wideband Matrix Center Stage (WMC) Subsystem Design Specification is an internal company document of DSC Communications Corporation, a predecessor-in-interest to Alcatel USA, Inc., the assignee of the present application. This document is labeled as proprietary on page i. This document is not believed to have been publicly disclosed prior to the critical date. The document relates to the state of development of the wideband matrix center stage subsystem of the integrated multi-rate transport node as of May 15, 1992.

DSC Communications Corporation Broadband Matrix Subsystem Design Specification Document Number: 065-3418-002 is an internal company document of DSC Communications Corporation, a predecessor-in-interest to Alcatel USA, Inc., the assignee of the present application. This document is labeled as proprietary on page i. This document is not believed to have been publicly disclosed prior to the critical date. The document relates to the state of development of the broadband matrix subsystem of the integrated multi-rate transport node as of April 6, 1992.

DSC Communications Corporation Wideband Low Density TSP Subsystem Design Specification Document Number: 065-3418-008 is an internal company document of DSC Communications Corporation, a predecessor-in-interest to Alcatel USA, Inc., the assignee of the

present application. This document is labeled as proprietary on page i. This document is not believed to have been publicly disclosed prior to the critical date. The document relates to the state of development of the wideband low density TSP of the integrated multi-rate transport node as of December 18, 1992.

DSC DEX ECS CROSS-CONNECT SYSTEMS STRATEGIC PLANS is a confidential internal company document of DSC Communications Corporation, a predecessor-in-interest to Alcatel USA, Inc., the assignee of the present application. The document is labeled "STRICTLY PRIVATE", a label used by the company for confidential and proprietary documents. This document is not believed to have been publicly disclosed prior to the critical date. The document relates to the state of development of cross-connect systems as of September 5, 1991.

DEXCS INTEGRATED SERVICES TRANSPORT NODE (DEXCS-ISTN) is a confidential internal company document of DSC Communications Corporation, a predecessor-in-interest to Alcatel USA, Inc., the assignee of the present application. The document is labeled "STRICTLY PRIVATE", a label used by the company for confidential and proprietary documents. This document is not believed to have been publicly disclosed prior to the critical date. The document relates to the state of development of the integrated services transport node (later known as the integrated multi-rate transport node) as of January 7, 1992.

INTEGRATED MULTI-RATE TRANSPORT NODE (IMTN) is a confidential internal company document of DSC Communications Corporation, a predecessor-in-interest to Alcatel USA, Inc., the assignee of the present application. The document is labeled "STRICTLY PRIVATE", a label used by the company for confidential and proprietary documents. This document is not believed to have been publicly disclosed prior to the critical date. The

document relates to the state of development of the integrated multi-rate transport node as of February 1992.

DSC CROSS-CONNECT SYSTEMS EVOLUTION is a confidential company presentation of DSC Communications Corporation, a predecessor-in-interest to Alcatel USA, Inc., the assignee of the present application. The document is labeled "DSC AND ITS CLIENTS USE ONLY". This document is not believed to have been publicly disclosed prior to the critical date, although it is believed to have been presented to Ameritech under an obligation of secrecy. The document relates to the state of development of cross-connect systems as of April 14, 1992.

Ameritech Services Nondisclosure Agreement is believed to be the nondisclosure agreement under which the above presentation was made.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Timothy F. Loomis", written over a horizontal line.
